About the Sustainable Innovation Forum

Innovation in Action

Taking place **alongside COP23, adjacent to the Bula zone**, SIF brings together **600+ carefully hand picked delegates, including : Ministers of Energy and Climate Change, Blue Chip CEOs, Mayors, Responsible Investors, Development Banks, Green Entrepreneurs and media**, for two packed days of capacity building, networking, collaboration and deal making that will galvanise and fast track the green economy.

Governments, cities and regions from the 152 countries that have ratified the Paris Agreement, must now meet their national climate change commitments (INDC's) so they are **looking for the clean energy, low carbon transport and finance solutions** to make this a reality.

SIF17 provides a world class line up of keynotes, panel discussions, networking sessions, live interviews, innovation spotlights, CEO panels, Mayors breakfast briefings and much more.

“We need to prove that protecting the environment is profitable and in everyone’s best interests. We can do this by holding up successful examples.”

Erik Solheim, Executive Director, UN Environment

The venue

The Forum will take place on the lawn of the Deutsche Post DHL Group Post Tower premises, adjacent to the COP23 'Bula Zone'.

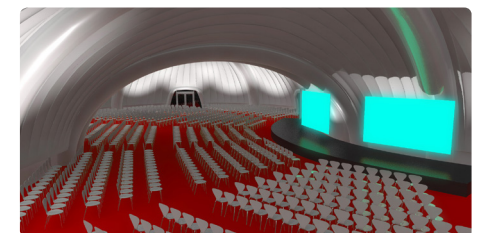

Climate Action are delighted to announce that this years' Sustainable Innovation Forum (SIF17) will take place on the lawn of the Deutsche Post DHL Group Post Tower, only steps away from the COP23 'Bula Zone'.

Our partnership with DHL has been formed out of aligned interests and mutual beliefs that innovation is the catalyst behind reduced environmental impact.

SIF17 will take place inside an award-winning inflatable structure that will be powered by DHL's renewable energy with all food waste from the Forum being converted into energy.

The stunning 4,000 square meter venue structure will be located on DHL's lawn, in the shadow of the 162.5 metre Post Tower - a building powered by 100% certified renewable energy, using a cooling system that allows it to consume 30% less energy.

Climate Action – the organisers of SIF17 have limited availability for organisations aligned with Climate Action to utilise the stunning venue space either as a side event to SIF17 on the 13th and 14th November or as a stand-alone event outside of those dates, throughout the two weeks of COP23.

Why attend?

A world class line up of keynotes, panel discussions, networking sessions, live interviews, innovation spotlights, CEO panels, Mayors breakfast briefings and much more!

1

Meet with Climate's Key Figures:

A hand-picked audience of 600+ global policy and decision-makers, providing a unique gathering of the most influential players in climate change policy and action.

2

Invaluable networking time:

Formal and informal networking opportunities ensure you will meet with a number of peers who are also vested in tackling climate change.

3

Capacity Building and Knowledge:

Learn from 75+ of the world's most sought-after thought leaders discussing the most pressing matters in combating climate change.

4

Focus on implementation:

Two years after COP21 the industry is ready to discuss real-life initiatives and projects, and teach from their experiences. Join to hear about the case studies that are driving climate change innovation.

5

Innovation Hub:

Meet 10 of the leading innovators in the green tech space supporting and developing innovative products to make existing processes more sustainable or creating new processes.

6

CEO panel discussion:

Businesses are taking bold and ambitious action to help create the transformative change we need to drive the transition to a low carbon economy. Hear from some of the most forward-thinking business leaders on why and how they are transforming their strategies to align with climate action goals.

7

Forge partnerships:

Face-to-face time with governments and financial partners. Enjoy two days of learning and networking with peers whose support can be incremental to your projects.

8

Discover innovative solutions:

Learn and exchange ideas with solution experts and industry thought leaders and pick up strategies and technologies which can accelerate your sustainable projects.

What will be discussed?

Keynotes, panel discussions, live interviews, innovation spotlights, CEO panels, Mayors breakfast briefings and much more content opportunities will ensure you get unique insights to the projects of governments and the public sector to meet national climate change commitments.

An unmissable agenda...

Sponsorship opportunities at SIF

SIF17 is the perfect platform for any business wishing to influence low carbon policy, showcase green tech solutions or secure funding from responsible investors, vested in combating climate change.

Thought leadership

- Address a highly esteemed audience with a Keynote speech
- Participate in an interactive panel discussion, part of a small group of high level peers
- Moderate a roundtable discussion, a highly focused opportunity to discuss the challenges of your clients
- Contribute to a webinar with an average audience of 700-900
- Convey your leadership message in a special feature in the annual UN Environment Climate Action report
- Have your interview distributed through all marketing channels

Business development

- Connect with the SIF participants onsite
- Arrange 1-2-1 meetings with registered attendees
- Invite your target clients to attend
- Network at the private VIP room with high level executives
- Bespoke lead generation campaigns managed on your behalf

Branding

- Showcase your latest technology and solutions at your exhibition stand
- Align your brand with the infographics produced by Climate Action
- Your sponsorship promoted on social media
- Your logo featured the SIF website and event collateral
- Your brand listed on the Climate Action product and services directory

“The Sustainable Innovation Forum 2016 was again a highly successful forum attracting international, national and local key opinion leaders. We felt that this year’s event excelled in bringing together leading environmental campaigners, high-level Ministers, business innovators and young professionals.”
